

6/28/2020

Hi Courtney and Paul,

I would like to extend my apologies to you for not responding back in a timely fashion. It has been a very busy spring and summer with the pandemic and the city municipal budget season that we just wrapped up on Thursday night.

Please let me extend my support to your neighborhood on fighting this cell phone tower with the way this was rolled out. Being a ward councilor I certainly understand when neighborhoods are not communicated with when projects don't get the proper vetting and neighborhoods are not allowed to be involved in decisions that will affect their quality of life. This is unacceptable.

Even though this is not in my ward it is in my city. Please let me voice my support and go on record to support the neighborhoods fight against this project that offered no transparency to its residents through a fair hearing process. Thank You.

Kevin J. Morandi

City Councilor - Ward 2
